No. R. 9767-76—L. R. 430-13-50, DATED BANGALORE, 20TH JUNE 1914.

ORDER THEREON.—In continuation of the Government Order read above, the following subsidiary instructions are issued for the guidance of the officers concerned :—

The amount allotted to each district will be placed at the credit of the Deputy Commissioner in the District Treasury. When a grant for any particular work is sanctioned, the Deputy Commissioner, after satisfying himself that the contribution of the villagers has been paid into the treasury or an equivalent quantity of work has been done by them, will transfer the amount of the grant by a bill to the Village Improvement Fund. The following particulars should be furnished in the bill :—

(i) The nature of the work for which grant has been sanctioned.

(ii) Estimate of cost.

(iii) Amount contributed by the villagers (*a*) in cash and (*b*) by labour.

(iv) The date on which the cash contribution was credited into the treasury (to be supported by the Treasury Officer's credit certificate).

2. When payment has to be made either during the progress of the work or after completion, separate work bills will be passed by the Deputy Commissioner and paid at the treasury out of the Village Improvement Fund. A monthly list of grants sanctioned will be submitted to the Government through the Revenue Commissioner and a copy thereof will be simultaneously forwarded to the Comptroller.

Letter No. 6630, dated 18th November 1913, from the Revenue Commissioner in Mysore, forwarding letter No. 60, dated 13th November 1913, from the Survey Superintendent, submitting two statements showing the remuneration payable to the village officers of the Mudgere Taluk, as the result of the decennial revision based on the revenue collections of 1908-09, and soliciting instructions as to whether the revision which has resulted in a decrease in the potgi by Rs. 282-12-0 as shown in the accompanying statement should be given retrospective effect in accordance with the directions contained in Government Order No. R. 2904-13—L. R. 391-09-5, dated 2nd October 1913.

No. R. 9382-4—L. R. 12-13-21, DATED BANGALORE, 6TH JUNE 1914.

ORDER THEREON.—Government observe that, under the terms of the Government Order cited above, village officers are to be given the benefit of the increased revenue realized by Government at every decennium. It was not their intention that when the revision results in a decrease in the potgi, retrospective effect should be given to the decrease.

2. Government are, therefore, pleased to sanction the payment of the revised potgi from the date of this order.

1. Subject No. 111 of the Representative Assembly Proceedings of 1911, regarding the sub-division of assessed unoccupied survey numbers with a view to their being given out for cultivation and the reply of Government thereto.
2. Letter No. 892, dated the 25th July 1912, from the Revenue Commissioner in Mysore.
3. Letter No. 46, dated the 11th September 1912, from the Superintendent of Revenue Survey.

(1, 2 and 3 printed in extenso as accompaniments.)

No. R. 9588-97—L. R. 520-11-4, DATED BANGALORE, 16TH JUNE 1914.

ORDER THEREON.—The two main objections to the sub-division of assessed survey numbers at other times than re-survey are (1) that it is difficult to apportion the assessment among the several parts of the survey number into which it may be sub-divided and (2) that the sub-divisions are likely to lead to much confusion as it will take time to rectify survey records and maps. These objections do not apply if the sub-divisions are effected by the Survey Department. Government are of opinion that the present rule which requires every case of sub-division, both of occupied and unoccupied assessed survey numbers, to be submitted to Government for sanction, is productive of much inconvenience and that there can be no objection to delegate the power to sanction sub-division of survey numbers to the Superintendent of Survey who may be trusted to exercise his discretion and permit sub-division only when it is required in the interests of Government or in order to afford facilities for bringing under cultivation unoccupied survey numbers of unwieldy size. A notification will be issued in the Gazette suitably amending Rule 73 of the Land Revenue Rules.

Under Sections 232, 109 and 110 (*b*) of the Land Revenue Code, the Government of His Highness the Maharaja of Mysore are pleased to cancel the words "and with the sanction of Government" occurring in the 3rd line of para 1, Rule 73 of the Land Revenue Rules issued under Notification No. 264—R. 122, dated 10th July 1901, and insert the words "occupied or unoccupied" after the words "any Survey Number" in line 4. The rule thus amended will read as follows:—

"Nothing in the preceding rule shall prevent the Superintendent of Survey at any time, subject to the provision of Section 109, from dividing any survey number, either occupied or unoccupied, into two or more survey numbers when considered necessary in the interests of Government or in order to rectify any case of hardship such as might result from enforcing the liability under Section 110 (*b*)."

Proceedings of the Government of His Highness the Maharaja of Mysore,

ACCOMPANIMENT (1).

SUBJECT NO. 111.
Deputy Commissioners order the sub-division of assessed survey numbers.
Mr. Nadig Appajappa, Shimoga District Board.

Summary of discussion.—The unwieldy size of dry lands in some places deters an average raiyat from applying for them for cultivation. Applications for portions of assessed survey numbers are not easily disposed of, as under Standing Orders the sanction of the Superintendent of Revenue Survey is necessary and much time is lost in correspondence between the taluk and the Survey offices. To facilitate the easy disposal of such darkhasts, it is desirable to empower the Deputy Commissioners to have the necessary phods done by the District Surveyors or the hobli shekdars and grant the portions applied for without any reference to the Superintendent of Revenue Survey.

Reply of Government.—In taluks in which revision settlement has not been introduced in the case of unoccupied lands, both assessed and unassessed, power has been given to Deputy Commissioners under the rules for the speedy disposal of darkhasts to direct sub-divisions and get the maps, etc., rectified through the Survey Department. The question of extending these rules to all cases will be considered.

ACCOMPANIMENT (2).

Letter No. 892, dated 25th March 1912, from K. Doraswami Iyer, Esq., Officiating Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to your letter No. R. 7418—L. R. 520-11-1, dated 1st June 1912, calling for my opinion on D. R. A. Subject No. III of 1911 in the matter of the proposal to empower Deputy Commissioners to order the sub-division of assessed survey numbers in the taluks into which Revision Survey Settlement has been introduced, I have the honor to state that the necessity for sub-division arises only when the survey numbers are very large in extent. Assessment on survey numbers is fixed by the Survey Department after taking into consideration generally the quality of the soil in the different portions of the land. If, therefore, they are sub-divided through Revenue Agency and average assessment is fixed on the sub-numbers, it may not be fair and equitable. I am, therefore, of opinion that the existing practice may continue.

2. As regards the delay in the sub-division of lands complained of by the D. R. A. Member, Revenue Officers may be strictly enjoined to see that all applications for lands are promptly disposed of.

ACCOMPANIMENT (3).

Letter No. 46, dated 11th—12th September 1912, from Rajakarya Prasakta Rao Bahadur D. Shama Rao, Esq., Superintendent of Mysore Revenue Survey and Settlement, to K. R. Srinivasa Iyengar, Esq., M. A., Secretary to the Government of His Highness the Maharaja of Mysore General and Revenue Departments.

With reference to your letter No. R. 7419—L. R. 520-11-1, dated 1st June 1912, inviting my attention to Subject No. 111 of the Representative Assembly Proceedings of 1911-12, and calling for my opinion as to whether the rules under which Deputy Commissioners have power to get the assessed and unassessed survey numbers sub-divided under their own orders in taluks, into which revised survey settlement has not been introduced, may be extended to all cases, I have the honor to state as follows:—

2. The rules, referred to, are those that have been prescribed in Government Order No. R. 7486-94—L. R. 294-04-2, dated 18th December 1905, for the speedy disposal of darkhasts in taluks, not brought under revision settlement. A perusal of the correspondence that led to the issue of these rules, will disclose the circumstances which necessitated the special procedure prescribed therein for the speedy disposal of darkhasts. It came to the notice of the Survey Commissioner that, in spite of the loan of the services of measurers to the Revenue Department, an unusually large number of darkhasts for portions of survey numbers were pending in the districts for years together, chiefly because the measurers were not properly employed on their legitimate work. This unsatisfactory state of affairs not only inconvenienced the raiyats, most of whom were perhaps landless and were anxious to obtain lands for cultivation to eke out their subsistence, but also was detrimental to the legitimate increase of land revenue by the extension of cultivation. To facilitate the disposal of the accumulated arrears and also to prevent the accumulation of such arrears in future, the Survey Commissioner proposed the special procedure laid down in the rules under reference, whereby the Deputy Commissioners were authorised to order the sub-division of lands applied for for cultivation, only in those taluks which were not resurveyed. Sub-divisions effected by the Revenue Department under the rules in question, are not brought on to the Survey records but are entered in the Revenue accounts for purposes of revenue administration. The power was delegated to Deputy Commissioners, as the resurvey affords an opportunity for the rectification and proper recognition in the Survey records of what has been done by the Revenue Department. During resurvey, the sub-divisions effected by the Revenue Department will be dealt with under the resurvey rules laid down in this behalf, and at the revision settlement, proper assessment will be imposed thereon, so that when the revision settlement is effected, they will have been scrutinised, corrected and brought on the Survey records in due course.

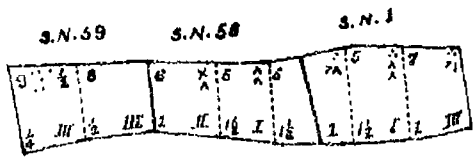
3. What may be allowed to be done in unresurveyed taluks, cannot be permitted in resurveyed taluks. For, while there is an opportunity for regular field work by the Survey Department during resurvey in the former, there is no such opportunity in the case of the latter. Under the Bombay

system of survey settlement which has been adopted in our State, field work is done by the regularly constituted Survey Department only during original and revision surveys. When these operations are completed, the Survey Department is replaced by the Land Records Department. The same policy will, for aught I know, be followed here also, and there will be no *re* re-survey involving field work by Survey establishments. I have merely to refer to this point at present, for, this is neither the place nor the time to consider the subject in detail. It is sufficient for my present purpose to point out that in the case of resurveyed taluks, there is no occasion, at least for a long period of thirty years to come, for systematising the work done by the Revenue Department under the rules in question. The Survey records will remain unaltered, as stated by me in para 2 above, and will not represent the state of facts as they exist in the field. There will be no agreement between the Survey records and the Revenue records. The system of revenue administration will be unhinged and the result will be hopeless confusion in all the accounts.

4. Apart from the points above mentioned, let us for a moment consider the provisions of the Revenue Law in the matter of sanctioning and effecting the sub-division of lands, which are embodied in Rules 72, 73 and 74 of the Land Revenue Rules. The Deputy Commissioner is authorised to order the sub-division of lands only in those cases that come under Sections 122 and 125 of the Land Revenue Code. The Survey Superintendent is empowered to order and effect sub-divisions during re-survey. At other times, the Survey Superintendent has to obtain the sanction of Government for the sub-division of occupied lands. Please see Government Order No. R. 5229-30—L. R. 125-09-6 dated 29th January 1910. The question as to whether the sub-division of unoccupied lands, at other times than resurvey, requires the sanction of Government, has not been explicitly decided by Government, but Government Order No. R. 7471-72—L. R. 286-09-2, dated 29th April 1910, indicates that Government sanction should be obtained in this case also. The practice at present, however, is that in the case of unoccupied lands the Survey Superintendent orders the sub-division without reference to Government, and this has been allowed to continue for want of clear instructions from Government. Both the Government Orders above referred to have been passed on references made by me, representing to Government that the power of generally directing the sub-division of lands may well be delegated to the Superintendent of Survey who has otherwise to move the Government in every individual case for sanction. But the Government did not fall in with my views and declined to grant any general power in the matter to the Superintendent of Revenue Survey. What is denied to the Head of the Survey and Settlement Department, cannot, for even stronger reasons, be delegated to Deputy Commissioners. The law, as it stands, does not provide for the delegation and requires to be altered if the delegation of the power is to be made.

5. The Survey Department is accused of delays in the disposal of "Phodi" records, and this has been adduced in the representation before the assembly as a reason for investing Deputy Commissioners with the power of ordering sub-divisions. But I assure Government that the blame is quite unmerited When a darkhast is received for a portion of a survey number, the necessary preliminary enquiry is made in the Revenue Department, and if it is considered desirable that the portion applied for should be given out for cultivation, the Deputy Commissioner forwards the records to the Survey Superintendent for instructions as to whether the sub-division asked for can be effected. The Survey Superintendent after going through the records and other necessary references connected therewith, directs, wherever the same is necessary, that the sub-division may or may not be made, as the case may be. If the survey number is to be sub-divided, he further directs that the work in the field should be got done by either the District Surveyor, or a Taluk Measurer, if one is available there, and that the records of measurement and demarcation with the map and Akarbands should be sent to the Survey Department. When these are received, they are further scrutinised as regards the correctness of measurement, etc., and the proper assessment is then imposed on the lands, with reference to the classification of the soil, etc., by the Survey Superintendent, who futher directs the Department to correct and issue the maps and Akarbands. The corrected maps and Akarbands are duly issued to the Revenue Department. In following this procedure, the work in this Department is done as promptly as possible, but sometimes the correction of Akarbands is delayed as copies thereof are not promptly sent by the Revenue Department. Otherwise, the papers referred to this Department are disposed of within a week or fortnight at the latest. The time reasonably taken for the work is well spent, as every detail will be gone through systematically, affording no scope for confusion or variance in the records and accounts of either Department.

6. If, however, it is considered necessary that greater facilities should be afforded for the sub-division of unoccupied lands required for cultivation, the Deputy Commissioners may be empowered to direct sub-divisions in unobjectionable cases, in conformity with the prescribed minima. But the field work must however be done by the District surveyor or a competent measurer and where it is not possible to get the work done by them, it may be got done by a trained shekdar, but the work must be tested and certified to as correct by the District Surveyor. The records of measurement with the map and Akarband should then, be sent to the Survey Superintendent, who will impose the assessment on the lands and order the correction of the Survey records. If the land has to be immediately given away for cultivation, the Deputy Commissioner may impose a temporary assessment thereon. But the question of assessing it permanently should be left to the Survey Superintendent, as this is a matter of a complicated nature requiring technical knowledge. I append in the margin a concrete example to show that under our system of classification and assessment, Deputy Commissioners are not competent to assess lands permanently. The Survey Number I originally consisted of



13 acres and 18 guntas of dry land, with an assessment of Rs. 7-8-0 at the rate of nine annas per acre. It was sub-divided and formed into three numbers as indicated by the thick lines the extent and assessment of each of the smaller numbers being as follows:—

No.	Extent	Rate	Assessment
	A. g.	Rs. a. p.	Rs. a. p.
1 ..	4 32 ...	0 10 0 ...	3 0 0
58 ...	5 10 ...	0 10 6 ...	3 12 0
59 .	3 16 ...	0 4 0 ...	0 12 0
	13 18		7 8 0

If the same rate of assessment were to be charged on the sub-divided numbers, the matter would have been one of simple arithmetic. But the assessment was to be fixed with reference to the classification of soil, etc., and the Survey Superintendent found that a rate of 10 annas had to be imposed on Survey No. 1, of 10 as. 6 pies on Survey No. 58 and of only 4 annas on Survey No. 59 This was because the soil in the different compartments was different and had to be assessed accordingly. The Revenue Department neither have the details required, nor have the technical knowledge necessary to fix the assessment with reference to soil classification. I have taken a simple case, consisting only of dry land, for illustration. When sub-division is effected in a "Misreet" number, the assessing of the smaller numbers becomes more complicated. The illustration is, however, sufficient to show that the matter of assessment must be left entirely to the Survey Superintendent.

7. I would not advocate anything more than what I have indicated above. The rules for the speedy disposal of darkhasts may, as hitherto, remain in force in taluks not resurveyed. Their extension to resurveyed taluks is neither called for nor advisable for reasons set forth above.

The Revenue Commissioner's Review No. 13606-14—1, dated Bangalore, 11th May 1914, on the statements showing the losses in cattle of various kinds received from the Deputy Commissioners of Districts for the quarter ended 31st December 1913.

Recorded.

The accompanying statement shows the extent of cattle mortality in the State during the quarter under review as compared with the corresponding period of the previous year.

It is satisfactory to note that there was a general decrease of mortality in the various kinds of cattle and that the total loss was nearly 2,647 less than in the corresponding quarter of the previous year, the totals for the quarters being 12,977 and 15,624 respectively.

3. Correspondence ending with letter No. 273—137, dated the 7th March 1913, from the Deputy Commissioner, Shimoga District, in the matter.

4. Letter No. 7216, dated the 13th January 1914, from the Conservator of Forests in Mysore, expressing his views in the matter.

No. R. 9314-27—FT. 124-12-16, DATED BANGALORE, 2ND JUNE 1914.

ORDER THEREON.—After considering the two applications referred to above, the Government of His Highness the Maharaja of Mysore, are pleased to offer to the Mysore Economic Union a lease of the right of collecting the fruit of the tree, *Vateria Indica*, commonly known as Dhupa, growing in the State and District Forests and lands at the disposal of Government within the Mysore State, on the following terms:—

1. The rent due to Government in return for the lease will be calculated at the rate of an anna and a half, per year, for every tree growing and will be payable in two instalments in September and March every year. The Conservator of Forests in Mysore should make arrangements to have the trees enumerated area by area and the number of trees and amount of rent payable duly entered in the lease.

2. The lease will be limited to a period of five years, but will be subject to extension for a further period of five years, on the same terms, if the company has collected a sufficient quality of the produce and started stearine, candle and soap works within the Mysore State before the expiry of the first period of five years. At the end of ten years Government will have discretion to raise the rent to any amount considered reasonable but not so as to injure the enterprise and may renew the lease for such term and on such further conditions as may be considered proper.

3. The grant of the lease will be subject to the company depositing with Government a sum of Rs. 5,000 as a guarantee of its good faith in starting, within the limits of the State, a factory within three years and working it diligently. In the event of the company failing to so start the factory within that period and work it diligently the amount deposited will be liable to be forfeited and the lease cancelled.

4. Government should not be asked for any other kind of help such as, the free grant of site for the factory or any other concessions.

5. It should be made clear in the prospectus that in granting the lease, Government do not convey any assurance about the success of the enterprise.

6. The company, its agents and servants should conform to all rules and orders made under the law for the time being in force, for the exploitation and removal of the produce and to such other conditions (to be indicated by the Conservator of Forests) as may be necessary for ensuring protection to forests and forest growth from fires, etc.

7. In case of non-payment of the rent due or non-compliance with any of the other conditions of the lease, the Government will be at liberty to cancel the lease. All sums due under the lease will be recoverable as an arrear of land revenue.

Revenue (Forest), dated 2nd June 1914.

The Conservator of Forests in Mysore is requested to intimate these terms to the Mysore Economic Union and ascertain if the company is willing to accept the lease on these conditions and, if so, to have a draft of an agreement between himself and the Economic Union drawn up in consultation with the Government Advocate, and submitted to Government for approval.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 9384, dated the 9th March 1914, from the Conservator of Forests in Mysore, submitting his *report of inspection of the Kolar District Forest Office, conducted on the 13th February 1914. (Printed as an accompaniment.)

No. R. 9586-7—FT. 149-13-2, DATED BANGALORE, 16TH JUNE 1914.

ORDER THEREON.—Recorded.

2. It would have been more useful if some general idea had been given of the nature of the discrepancies referred to in paragraphs 7, 9 and 20. It is very unsatisfactory that the discrepancies noticed so far back as 1908 have been allowed to remain unexplained till now. It defeats the objects of these inspections if the short comings noticed therein are not promptly rectified. The Conservator of Forests is requested to deal promptly with the matter.

3. *Paragraph 54.*—The number of cases in which compounding fees for forest offences have yet to be recovered is large and some of them have been pending from 1908. It is rather strange how the compounding fee can be in arrears at all, since payment of the fee is a condition precedent to the composition of the offence. The Conservator of Forests is requested to explain the situation more fully.

4. The necessity for the proper maintenance of the prescribed registers should be impressed on the District Forest Officers.

No. FL. 6048-58—G. F. 73-13-4, DATED BANGALORE, 20TH JUNE 1914.

ORDER THEREON.—Recorded.

2. Government note with satisfaction that the outturn of the work of the Local Audit Department during the year 1912-13 compares favourably with that of the previous year. The Comptroller's assurance about clearing off the arrears of work with the help of temporary hands is also noted.

3. It is, however, disappointing to observe that there is still cause for complaint by the Comptroller that the Presidents of Local Boards and other authorities do not pay sufficient attention to the objection statements and audit notes forwarded to them. The Deputy Commissioners of Districts should make proper arrangements to ensure that the objections raised by the Comptroller are promptly attended to.

4. Instances of serious embezzlements and minor incidents of culpable negligence resulting in loss of money and violation of account rules have been discovered and traced to want of supervision on the part of the Vice-Presidents concerned. Government trust that greater vigilance will be exercised in future.

5. It is hoped that the issue of the Municipal Manual will place the rules in a simple form and will tend to minimise the irregularities.

3. *Advances recoverable.*—Under this head the largest outstanding is in the Mysore District Treasury and next in order come the Districts of Bangalore, Kolar, Hassan, Tumkur, Chitaldrug and Shimoga. The Officers concerned should devote their personal attention to get the items adjusted early and have the accounts cleared as desired in Government Order. No. Fl. 6956-7001—G. F. 146-12, dated 30th May 1913, the following items among others call for special attention and early adjustment:—

		Rs. a. p.		
Mysore District	...	4,689 3 4	for 1900-01	... On account of construction of frontage to the Bazaar in the approach to the Jagan Mohan Palace.

4. *Suspense.*—The Mysore District is the only one that shows some items as outstanding. Early adjustment is very desirable.

5. *Items adjusted but awaiting clearance.*—The largest amount under this head are in the Districts of Mysore and Bangalore, next in order are Shimoga, Kolar, Tumkur, Chitaldrug and Hassan. The hope entertained in the previous year and expressed in para 3 of Government Order No. Fl. 6956-7001—G. F. 146-12, dated 30th May 1913, has not been realised.

Financial (General Finance), dated 24th June 1914.

6. *Service payments for recovery.*—There is no reason for any amount to remain unadjusted under this head if either the Comptroller's retrenchment order is implicitly enforced by the Treasury Officer or steps taken early to explain matters and have the objection withdrawn. The Deputy Commissioners of Districts should see that the instructions of the Comptroller are promptly attended to in future.

With reference to para 5 of Government Order No. Fi. 6956-7001—G. F. 146-12, dated 30th May 1913, it has been separately reported by the Comptroller that a sum of Rs. 3,570-12-4 is outstanding under "Service payments for recovery" as detailed below for which the Treasury Officers are responsible:—

	Rs.	a.	p.		Rs.	a.	p.
Bangalore	796	10	3	Kadur	88	1	2

Tumkur	328	9	6	Mysore	982	12	6
Shimoga	396	4	10	Hassan	121	8	11

The attention of the Treasury Officers should be drawn to Article 16 of the Civil Account Code and recoveries ordered by the Comptroller should be made promptly from the bills of the officers or establishments as the case may be, presented for payment immediately after retrenchment orders are received.

Rules regarding the constitution and conduct of business of the Representative Assembly as published by Notification No. 21572—F. 99-93, dated the 10th June 1894, and as revised by Notification No. G. 1803—G. R. 4-07-4, dated the 6th September 1907.

No. G. 10725-773—G. R. 17-13-1, DATED BANGALORE, 27TH JUNE 1914.

ORDER THEREON.—Several questions connected with the organization and functions of the Representative Assembly and the rules for transacting business therein were discussed at the last meeting of the Assembly.

2. After careful consideration, Government are pleased to lay down the following instructions in regard to some of the questions referred to above, in accordance with general sense of the Assembly ascertained in October last:—

(*a*) *Constitution of the Assembly.*—Graduates of an Indian University were eligible to become members of the Assembly under the Rules of 1891. This provision was omitted when the rules were amended in 1894 though they continued to have the right to vote. Government consider it desirable to provide for due representation of persons who have received higher education and are pleased to direct that Graduates of a University of not less than ten years' standing be deemed eligible for membership in the Representative Assembly irrespective of any property qualification, provided that they have been residing in the taluk concerned for at least three years immediately before the date of the election. An additional clause to this effect will be inserted as clause (*c*) under Rule 3 in the rules issued with Notification No. G. 1803—G. R. 4-07-4, dated the 6th September 1907.

(*b*) *Number of subjects for discussion.*—The number of subjects for discussion in the Assembly, which has been steadily rising since 1907, reached the record figure of 832 last year. As such subjects are necessarily of varying degrees of importance, it is deemed desirable to limit the number of subjects without in any way fettering the right to discuss questions of real moment. Accordingly the maximum number of subjects, both General and Local, to be selected for discussion in the Representative Assembly in any year is fixed at 75 for each of the Districts of Bangalore and Mysore and 50 for each of the remaining districts. The selection of the specified number of subjects will be made on the basis of the number of votes secured for each subject at the preliminary meeting of the Representatives held by the Deputy Commissioners of Districts. The members should be informed by the Deputy Commissioners that as a rule, questions of general importance should be preferred to purely local subjects which, as far as possible, should be attended to by the District Officers themselves. An additional rule to this effect will be inserted as Rule 5A in the rules issued in Government Order No. G. 4450-89—G. M. 235-06-1, dated the 18th January 1907.

(*c*) *Rules for discussion.*—With a view to further simplify the discussion in the Representative Assembly, Government are pleased to lay down the following instructions supplementing those issued in the Government Order dated the 6th September 1907:—

(i) The subjects received from the Deputy Commissioners will be classified by Government into two classes., *viz.*, Important and Ordinary.

(ii) Important subjects will be first taken up for discussion in the Assembly.

(iii) Ordinary subjects will then be discussed and dealt with rapidly, that is, they may not receive in the Assembly itself the same detailed consideration that Important subjects will.

(iv) After a reply is given by the President of the Assembly to any representation, the subject shall not be discussed further.

General (Reports), dated 27th June 1914.

(v) A time-limit of 15 minutes for each Important subject and 5 minutes for each of the other subjects will be ordinarily allowed. Discussion by the speakers on any subject should not be prolonged beyond the time-limit specified, without the special permission of the President.

No. G. 10020-67—G. M. 292-13-1, DATED BANGALORE, 8TH JUNE 1914.

ORDER.—The Superintendent, Government Stationery, has brought to the notice of Government instances of supplemental indents for forms being sent to him for compliance during the currency of a year and thus imposing avoidable additional work on the Government Press and extra cost on Government. He suggests that to meet stray requisitions in unavoidable cases, a reserve all round of 4 per cent may be kept and that to provide accommodation for the proper stocking of them, angle-iron racks may be put up in the despatching room of the Government Press.

2. Government observe that there is reason to believe that indents for forms are not prepared with that care which the subject demands and that if all indents were carefully prepared cases of supplemental indents would be rare and there would be no necessity to keep a reserve.

Government are accordingly pleased to direct that all indenting officers and departments should so frame their annual estimates of printed forms as to have a fair margin of stock with them.

Government Order No. G. 5390-2—G. M. 36-11-14, dated the 11th April 1912, directing an industrial survey of the State, and placing Mr. V. S. Sambasiva Iyer on special duty for the work.

No. G. 10426-67—G. M. 67-13-305, DATED BANGALORE, 19TH JUNE 1914.

ORDER THEREON.—Mr. Sambasiva Iyer was on special duty in connection with the industrial survey of the State, in all for about ten months prior to 1st July 1913, when he reverted to the Education Department. He has since completed his report and seen it through the press in addition to his duties as Professor of Geology. The last of the three parts into which the report is divided was received in March 1914.

2. The main lines on which a report was to be drawn up were suggested by the Industries and Commerce Committee and a plan of work was prepared at the outset by Mr. Sambasiva Iyer in consultation with Mr. Chatterton. The report as now framed is in general accordance with the programme then laid down.

3. Part I is devoted to a consideration of the material and power resources of the State, and to a study of the economic condition of the raiyat and the artizan. In Chapter I, an investigation is attempted into the statistics of production and consumption and Chapter VII gives a summary with suggestions for pursuing the work in future. Part II covers the ground usually gone over in an industrial survey and contains a descriptive and suggestive account of the various important industries in the State. Part III enters into a detailed review of the trade and commerce of the Mysore State for the twenty years ended 1910-11.

4. For a preliminary attempt, the report is satisfactory as it brings together a large mass of information and suggestions which will provide material for the discussion of industrial and commercial questions in the State.

It will be necessary to revise the whole report or portions of it from time to time. Each revision will doubtless make the report more and more reliable and valuable for the student of economics and for persons engaged in industries and commerce in the State. Government await the suggestions of the Director of Industries and Commerce, and the Industries and Commerce Committee in this respect.

5. The report may be circulated to members of the Economic Conference and to all Departments of Government. A copy may be placed on the Editor's table.

Government Order No. G. 5218-57, dated the 14th April 1904, sanctioning the reorganization of the General and Revenue Secretariat.

No. G. 10713—G. M. 352-13-1, DATED BANGALORE, 26TH JUNE 1914.

ORDER THEREON.—The existing scale of the clerical establishment of the General and Revenue Secretariat, which was sanctioned ten years ago, is found to be unsuited to the needs of the present day, as, under its operation, the service has become quite unattractive. There are in consequence about 32 vacancies which cannot be filled for lack of eligible candidates. A revision of the scale is therefore urgently needed. The proposals submitted by the Officiating Secretary to Government, General and Revenue Departments, are calculated to ensure a free flow of promotion and increase the efficiency of the service. The proposed scale as compared with the existing scale will stand as follows:—

Present scale.			Proposed scale.		
19	First grade clerks	at Rs. 70—6—100	*First Division*—		
32	Second grade clerks	at ,, 50—4—70	65 Clerks		at Rs. 40—5—100
72	Third grade clerks	at ,, 30—4—50	*Second Division*—		
			49 Clerks		at Rs. 25—2—65
123	clerks Total cost	... Rs. 7,077½	3 Special appointments		at Rs. 70
			117 Clerks	Total cost	at Rs. 7,485

2. The work in the Secretariat has been steadily on the increase, but, for the present, it is not proposed to add to the numerical strength of the clerical establishment. The needs of the Secretariat will be met by a judicious distribution of work and by attracting capable graduates to the service.

3. With a view to remove the inconvenience now experienced by the absence on leave of members of the staff and the formation of special sections for work connected with the Dasara and Birthday functions, the preparation of the State Administration Report, etc., it is proposed to sanction a lump sum provision of Rs. 3,000 per annum for entertaining temporary hands. The grant will not be utilized except in cases of absolute necessity. Definite rules will be considered and framed for regulating the use of this grant. So long as this amount is utilized, it is not permissible to make acting appointments on the occurrence of vacancies in the grade of clerks.

4. Recruitment to the grade of clerks in both the divisions, with the exception of ten appointments in the second division reserved for qualified typists, will be by open competition. Appointments to the first division clerkships will be confined only to graduates and they will be required to do intelligent case work. For the second division, candidates who have passed the First in Arts or the Intermediate Examination, will be preferred and, if they are not available, Matriculates or those who have passed high in the School Final Examination will be selected. Clerks in the First Division will be required to be on probation on the minimum pay for 2 years and will earn confirmation thereafter, only if found efficient. The increments will be granted only to clerks who obtain a certificate of approved service.

The three special appointments in the second division will be reserved for clerks who may be doing exceptionally good work after drawing their maximum salary for at least three years.

5. The Government of His Highness the Maharaja are pleased to sanction the proposals as detailed above, with effect from 1st July 1914.

General (Miscellaneous), dated 26th June 1914

6. The net increase in cost amounting to Rs 4,890 will be provided in the budget in future years But the increase will be only nominal because, after the reorganization, there will be a saving of about Rs. 10,000 on an average under acting appointments which will not then be necessary.

7. Henceforward the status of the Superintendents of Branches will be the same as that of Amildars and their appointments will be notified in the Gazette.

Memo No. 101, dated 13th June 1914, from the Secretary to Government, Geological Department, submitting the reports of the Inspectors of Mines in Mysore on an accident which occurred on the 5th June 1914. in Tennant's Shaft, Mysore Mine, resulting in the death of three persons and serious injuries to three others.

No. 3153-5, DATED BANGALORE, 30TH JUNE 1914.

ORDER THEREON.—From the reports of the Inspectors of Mines it is observed that the accident occurred in a stope above the 759 level in Tennant's Section of the Mysore Mine and was due to the bursting of a quantity of rock from the hanging wall between the timbers and the working face. The evidence supports the view that this was due to an air-blast and was not a mere fall of ground. The stope was well timbered to within 8 feet of the working face and the Chief Inspector of Mines is of opinion that no further precautions could have been taken.

2. Under the above circumstances, no further action is called for. The reports of the Inspectors of Mines will be recorded.
